

MOHID QURESHI

Mississauga, ON, L5M 6V5

(416)402-7139

Mohidq99@gmail.com

OBJECTIVE

I am looking for a position where I can utilize my strong programming background and problem solving skills as a developer. My goal is to gain a breadth practical experience as a software engineer through internships in order to succeed in the field of computer science.

EDUCATION

2017-Present *Bachelors in Computer Science Algorithms Stream*

Carleton University

Enrolled First-Year

2013-2017 *Ontario Secondary School Diploma*

Stephen Lewis Secondary School

Completed Grade 12, With Honor Roll Award Every Year

Took Three Computer Science Courses With Focus on Java

PERSONAL PROJECTS

2015-2017

Software Development

- Created various applications ranging from games to utility applications on Windows and Android
- Worked with Java, Python and local SQLite databases on Android
- Projects include remakes of Atari's Asteroid and Arkanoid with the use of Java
- Developed a tax calculator on Android and a timed clicker game with the use of Java and SQLite databases to locally store user data
- Tax calculator is currently published on the Google Play Store as of February 2017
- <https://github.com/MOHIDQ>
Github page includes sources of all my developed projects
- <https://goo.gl/QzA0aF> (Published Application on Google Play)
